

# CoderDojo

## Do you code? We need you!

CoderDojo is a volunteer-run community of free programming clubs for young people. Our focus is on **community, peer learning** and **self-guided, online learning** with an emphasis on helping others and showing how coding is a force for change in the world!

As a volunteer, you would help kids ages 7-17 learn how to code, develop websites, apps, programs, games and explore technology. All kids will also have an adult participating, we just need some helpers in the room for questions and guidance.

We need volunteers who can help using MIT Scratch, HTML, Javascript, Python and more! *Students who have limited coding knowledge but would like to improve their coding ability are welcome to apply too!*

**Why Volunteer? View this video:** <http://youtu.be/HntLmTymmyc>

*Your commitment would be **2 hours of volunteering once a month** during the CoderDojo at Sammamish Library.*

Gain these valuable skills, while having fun:

- **Communication** – Interact with mentors and young people.
- **Networking** – Meet and develop contacts with IT hobbyists.
- **Programming** – You will be challenged technically as each Dojo covers several topics; improve your current skills and develop new ones.
- **Community Service** – Work with young people while helping out and giving back to your local community.

## Interested?

Contact Sammamish Library at 425-392-3130 or email
