

# Abacus Wizards

Making Math Magical

## After School Enrichment Program

The goal of our program is to teach students how to mentally calculate while at the same time enhancing and improving their brain. We use both the physical abacus device and iPad tablet games to train the most crucial cognitive skills such as **attention, observation, imagination, and memory**. Students will be able to solve mathematical problems entirely in their heads. iPad tablets will be provided during class time to incorporate various brain games which will help develop their manual dexterity and hands-on motor skills.

Classes are divided by  
Grades K-2, 3-5

### Hourglass Field Community Park & Recreation Center

10440 Black Mountain Road, San Diego, CA 92126
